

COOLING SYSTEMS

PORTABLE AC'S & HEAT PUMPS

1.5 TON AC/DEHUMIDIFIER

This versatile 115V portable air conditioning unit is suitable for various applications, including computer rooms, hospitals, schools & universities, laboratories, retail, process cooling, industrial environments, special events, and emergency short-term cooling needs.

The compact unit thermostatically controls temperature while managing humidity levels and preventing condensation & mold growth. It can be equipped with supply duct extensions, evaporator & condenser air plenums, a condensate collection tank, or a condensate pump for a wide array of applications.
