DF4500 MAKE-UP AIR HEATER

By drawing 100% fresh air, Make-up Air Heaters reduce air contaminants & pollutants while managing humidity levels and preventing condensation & mold growth. The thermostatically controlled air also prevents negative pressure that can lead to drafts and outside air infiltration. The DF4500 is equipped with wide scope gas modulation valving allowing for maximum temperature control and significant fuel savings. Like a permanent air handler the DF4500 provides evenly distributed, warm, dry air.
