UNIVERSITIES
+ CLIMATE
CONTROL**

A photograph of a large, multi-story brick building with many windows, partially covered in green ivy. A paved walkway leads through green trees towards the building under a blue sky with light clouds.

COLLEGES & UNIVERSITIES + CLIMATE CONTROL

CONSTRUCTION - MAINTENANCE - EVENTS - EMERGENCIES

REIC supports college and university maintenance/facility managers and building contractors by supplying temporary HVAC equipment, supported by true 24/7 technical and equipment support, during construction, equipment failures, planned maintenance, events or disasters.

- Portable cooling, heating or drying for rooms or large-scale HVAC equipment for larger areas or entire buildings
- Climate control during construction to preserve materials, prevent mold growth and condition building prior to occupancy
- Stand-by equipment during maintenance and/or for other temporary needs
- Rental HVAC equipment for short or longterm projects, events

Because safety is a foundation of REIC's core beliefs and values we only use products designed for your working conditions and always follow the manufacturers specifications. We offer an industry leading fleet and operate on a true 24/7 basis, ensuring optimal performance and reliability.

- Portable Cooling – 1 ton – 5 ton units
- Commercial cooling – 10 ton – 80 ton
- Heating – electric, direct, indirect, flameless or make-up air, up to 4.5 million btu units
- Self-contained heaters, up to 1.4 million btu
- Drying – Refrigerant & Desiccant up to 15,000cfm
- Solar-hybrid light towers
- 24/7 service
