CLIMATE CONTROL**

A background image of a hospital hallway with two medical professionals in blue scrubs and a white lab coat looking at a clipboard. The hallway has white walls, doors, and a green exit sign at the end.

HOSPITAL + HEALTHCARE CLIMATE CONTROL

EMERGENCY – BACKUP – CONSTRUCTION AND RENOVATION

Pre-planned or emergency situations, REIC Specialty offers a wide range of climate control equipment available for use in healthcare facilities.

- Emergency equipment and 24/7 response - portable climate control equipment in rooms or large-scale HVAC for larger areas or entire buildings
- Climate control during construction to preserve materials, prevent mold growth and condition building prior to occupancy
- Stand-by equipment during maintenance and/or for other temporary needs
- Help reduce re-infection rates with positive/negative pressure in designated areas, using temporary climate control and HEPA filtration equipped units

REIC Offers a wide variety of equipment ranging from the comfort of climate control, to helpful Drying and Dehumidifying, all with around-the-clock service available.

- Portable Cooling – 1 ton – 5 ton units
- Commercial cooling – 10 ton – 80 ton
- Heating – electric or indirect fired heating, up to 4 million btu units
- Drying – portable LGR up to 15,000cfm units
- Chillers – 100 – 300 ton units
- 24/7 service
