REICSPECIALTY.COM

A background image showing a construction worker in a blue hard hat and safety harness standing on a metal scaffolding structure. The worker is holding a flashlight, illuminating the scene. The background shows a complex network of metal pipes and ductwork, likely part of a HVAC system, within a large industrial or commercial building under construction or renovation.

MECHANICAL CONTRACTORS + CLIMATE CONTROL

CONSTRUCTION - MAINTENANCE - EQUIP BACKUP - EMERGENCIES

REIC can provide temporary HVAC solutions and expertise, supported by true 24/7 technical and equipment support, to keep you on schedule and within budget during equipment failures, planned maintenance or disasters. We've been providing these services for over 40 years.

- Portable climate control equipment or large scale HVAC equipment for entire commercial/industrial projects and facilities of all sizes
- Climate control during construction, for seasonal needs or emergency failures
- Stand-by equipment during maintenance and/or for other temporary needs
- Short- or long-term rentals, with full service setup/breakdown available

Because safety is a foundation of REIC's core beliefs and values we only use products designed for your working conditions and always follow the manufacturers specifications. We offer an industry leading fleet and operate on a true 24/7 basis, ensuring optimal performance and reliability.

- Portable Cooling – 1 ton – 5 ton units
